

“Every Day We Live Up To A Promise We Made 30 Years Ago!”

Established in 1979 by Ed Hill, Ed's Collision & Glass opened its doors in the great city of Maple Grove on February 1, 1979. Ed's started with 2 employees and has grown to 22 staff members. Ed's has earned its reputation from referrals and repeat customers.

With a 98.8 percent customer satisfaction index, it's obvious customers like doing business with our family owned company.

For 30 years we have kept our promise to be honest, professional, give 100% customer satisfaction and keep up with current repair technology. From the beginning, hand written estimates, hand tools and air driven tools were used. Today the use of our computerized estimating systems, Blow Thermo paint booths, Shark computerized measuring frame racks, and highly educated technicians are all necessary to bring your vehicle back to pre-accident condition. We are very proud to say we have become a northern landmark that continues to serve thousands of new and returning customers.

Thanks to our employee's, customers, insurance agents, adjusters and suppliers . . . we want you to know you mean the world to us!

**30 Years
of Service**
